

ENERGY CLUB NT

Our Vision

Energy Club NT is the leading organisation in Northern Australia providing a platform to connect the energy industry and stakeholders, initiate and sustain business relationships, support innovation and share information across the sector.

Our Mission

Energy Club NT supports development across a diverse energy sector and fosters collaboration that contributes to the growth and sustainability of the industry.

Our Values

- E Excellence** Maintaining high quality of services and our existing reputation to drive value through engagement
- N Networking** Providing a well established, premium platform to contribute to meaningful and positive relationships of stakeholders in the energy industry
- E Education** Committed to educating members and community by sharing information and supporting innovation across diverse energy sub sectors
- R Respect** Ensuring utmost integrity and respect at all times of interaction across membership and industry for the benefit of all stakeholders
- G Growth** Supporting industry and economic development opportunities driving benefits for the Northern Territory
- Y Your participation** Engaging our members across a wide demographic of industry representation cultivating diversity

OUR STRATEGIC DEVELOPMENT PLAN

Established in 2015, Energy Club NT has built a strong reputation as a leading industry platform to connect energy stakeholders across Northern Australia.

As we transition to a new phase of innovation and development for the energy industry, now more than ever there is a clear movement for collaboration across the sub-sectors.

The Northern Territory is well positioned to be a key jurisdiction for diversified energy production. Energy Club NT will continue to support our members and the industry in line with our values and key strategic goals.

1. Raise profile: Raising the profile of the organisation to elevate recognition and increase awareness from industry, stakeholders and wider community

2. Expand service offering: Add to existing high quality service delivery by identifying new initiatives, development and service growth opportunities

3. Promote NT industry: Promote industry that supports a diverse energy sector in the Northern Territory including identifying development opportunities, promotion of existing projects and assets, and building engagement with the local service and supply chain

4. Drive education and industry awareness: Find new initiatives to support industry education and awareness and consider how to partner with other existing programs

5. Foster collaboration that contributes to the development of industry: Drive continued development of industry by encouraging and fostering collaboration to build long term stability and stakeholder partnerships
