Connecting the
Energy industry
across Northern Australia

Our Vision

Energy Club NT is the leading networking organisation in Northern Australia providing a platform to connect the energy industry and stakeholders, initiate and sustain business relationships and share information across the sector.

Our Mission

Energy Club NT is an industry aligned, values driven organisation supporting a wide demographic of professionals in the energy sector including conventional and unconventional oil and gas, gas manufacturing, renewables and alternative energy sources. The Club is a not-for-profit association fostering professional relationships, business networking, research and development opportunities and collaboration that contributes to the growth of the energy industry.

Energy Club NT provides forums benefiting members and facilitating business opportunities by connecting the growing sub-sectors of the energy industry. We actively promote the service and supply capability of the NT industry and encourage positive engagement for continued investment opportunity for the industry's long-term sustainability.

Energy Club NT hosts various events to facilitate thought leadership, diversified and challenging dialogue relevant to the industry's growth and development, education and information sharing. We welcome as our members, local businesses, national and multinational companies, government and professional service representatives with an interest in the Northern Territory energy industry.

Our Values

Connection: Our purpose is to make meaningful connections with members, sponsors, staff, employers, students, associations, and other industry stakeholders. The Club provides networking opportunities and forums for industry-linked people. Members can expect a varied and active networking approach from their organisation.

Participation: Membership and sponsorship of the Energy Club NT supports the growth and sustainability of the energy industry in NT welcoming participation from local, national and multinational organisations. Our diversity of membership encourages significant connection across the wide demographic of the energy industry.

Education: Energy Club NT is committed to educating our members through information sharing and raising awareness research, development and training opportunities. We support the introduction of energy career pathways to NT high school's students through mentorship and industry speakers.

Inclusion: Energy Club NT has a philosophy of embracing diversity. Through building our network, we will bring our members, guests and industry into the consciousness of community.

Our Future

Each year in the Territory we see plenty of opportunity and innovation for operators, contractors and all companies associated with the energy industry. It's an exciting time to be in the Territory to witness the diverse transformation that this period of development will bring and to support the growth and sustainability of the NT energy industry.

It's encouraging to note that Australia is on the way to becoming a major player in the international LNG market and the Territory is building its capacity to become a recognised global oil and gas hub. NT celebrates the completion of the construction of the INPEX operated Ichthys project, transition and expansion plans for Darwin LNG plant operated by ConocoPhillips, the launch of Shell Prelude into production phase, the construction of the Northern Gas Pipeline, and now the potential for the onshore gas industry heralding a future for gas development, processing and supply operations.

The potential for the growth of the onshore industry in the Territory is remarkable and has been recognised as an unrivalled global precedent, rich in resources and development opportunity. Over the coming years the industry will see world-class investment in the sector through exploration and production of unconventional oil and gas. Forecasts indicate that as the industry grows, the Northern Territory will see game-changing economic growth.

With a positive decision to proceed with the development of the onshore gas industry, it is important that the industry, government and supporting businesses work together to ensure safe and responsible outcomes to benefit the Territory.

The 2018 expansion for Energy Club NT demonstrates alignment with the Northern Territory Government's 50% Renewable Energy target by 2030 opening opportunities for investment and business growth in the region.

Industry trends are showing that renewables and oil and gas projects can coexist and provide innovative solutions across the energy sector. These current and existing opportunities perpetuate the need for a platform, such as Energy Club NT to continue to support business relationships, inspire thought leadership and diversity, educate and share information to build a stronger industry.

Industry support is essential for Energy Club NT to continue to deliver these services to our members and the wider business community. The focus on building a strong brand and reputable industry profile for Energy Club NT and our stakeholders has been a priority and will continue to be so as we build on our success. There are still many great initiatives and ideas to be explored to ensure we remain relevant and provide value to our sponsors and membership.

Capitalising on our success so far, the foundation has been laid for an industry focused organisation that has proved invaluable to the large number of national and multinational companies who have established operations and projects already underway in the Territory, as well as those who will establish onshore and offshore projects in the years ahead.

Membership

Becoming a member of Energy Club NT not only provides you with a premium platform for industry education, networking and connecting with others, but also introduces opportunities for professional development and participation in the industry through forums encouraging dialogue and collaboration across the diversity of our membership.

Our forums help to build strong business relationships and actively promote the service and supply capability of the NT industry and encourage positive engagement for continued investment opportunity and the industry's long-term sustainability.

With an open invitation for diversity across the energy industry, we welcome members from all sub-sectors including local businesses, national and multinational companies, government and professional service representatives with an interest in the Northern Territory energy industry.

Members will receive exclusive access and discounts for Energy Club NT events and benefits with some of our aligned partners and organisations.

Application for membership can be made online, in person or by email: www.energyclubnt.com.au/membership

Partnering with us

Club Sponsorship

Becoming a Sponsor is an effective and value adding way to compliment your marketing strategy to and ensure heightened visibility and positive publicity. Sponsorship provides a great means of broadening brand awareness by reinforcing your company's credibility, image, and prestige by supporting initiatives in target your markets.

Benefits that demonstrate how partnering with Energy Club NT is a powerful tool in profiling your company include:

Community Involvement and Giving Back

Organisations that get involved with local events send a clear message to all attendees that they are genuinely interested in supporting our industry, and the growth of the NT energy sector. Companies that show generosity through participation will inspire social interest, positive promotion and appeal to the audience and wider community.

Create, Develop and Enhance Credibility

Your sponsorship will assist in the establishment of a value driven and industry aligned organisation, such as Energy Club NT, reaffirming a commitment to developing a strong future for NT. Attending industry events is important, but standing out in the crowd by being a sponsor will highlight your organisation to a captive and relevant audience.

Building Brand Recognition

Our membership and events target a diverse range of professionals working in the NT energy industry. Energy Club NT aims to bring together those who will benefit from our targeted networking platforms and information sharing.

As a sponsor, your logo will be displayed on a variety of materials including flyers, email, brochures, websites, tickets, and signage – further increasing brand awareness. Being recognised as a sponsor will demonstrate your support to industry members and the general public. There will also be potential to advertise and share your corporate message with a company profile in our monthly newsletters and online blog.

Marketing Campaigns and Media Exposure

All events have their own marketing strategy to ensure the event is well attended. Sponsors will benefit from being promoted throughout the process. Some events will have local media support and campaigns reaching out to the Territory audience, and also to those organisations operating in the NT but who aren't necessarily based here, providing additional exposure and visibility to the energy sector.

Distributing promotional merchandise

Whether your company has been around for years or you're just starting out, keeping your brand front of mind is essential to long term sustainability. As a sponsor, you'll have the opportunity to provide branded merchandise and corporate information for distribution to members and guests – a great way to ensure your company is remembered long after any single event.

A message from the Chairman: Hon. Paul Henderson

As Chairman of your Energy Club, I am proud to lead a Board of exceptional people from the private, public and industry sectors who are committed to providing great value to members by way of using their expertise and networks to provide high quality member events and services. We are really fortunate to have an exceptional CEO in Sonia Harvey who works tirelessly and diligently in servicing and growing our membership and ensuring the club has a strong balance sheet that can deliver fantastic events for our members.

The Energy Club only exists because of our members and sponsors. I thank you for your continued support and encourage you all to use your networks to further grow your club and please consider the value of sponsorship to your business through support and recognition of club activities.

A message from the CEO: Sonia Harvey

Its encouraging to note that Australia is on the way to becoming a major player in the international LNG market and the Territory is building its capacity to become a recognised global oil and gas hub. NT looks forward to the completion of construction of the INPEX Ichthys project, expansion plans for Darwin LNG plant operated by ConocoPhillips, the launch of Shell Prelude into production phase, the commissioned Northern Gas Pipeline, and now the potential for the onshore gas industry heralding a future for gas development, processing and supply operations.

The potential for the growth of the onshore industry in the Territory is remarkable and has been recognised as an unrivalled global precedent, rich in resources and development opportunity. Over the coming years the industry will see world-class investment in the sector through exploration and production of unconventional oil and gas. Forecasts indicate that as the industry grows, the Northern Territory will see game-changing economic growth.

The 2018 expansion for Energy Club NT also aligns with the Northern Territory Government's 50% Renewable Energy target by 2030 opening opportunities for investment and business growth in the region.

I'm optimistic about the long-term future of the energy sector in NT, and the Club's commitment to support our members across the region. As Founder and CEO of Petroleum Club NT, now Energy Club NT, I'm committed to the delivery of our vision, mission and values – everyday, with every decision.
